PROFILE

Detail-oriented and motivated Computer Science graduate with hands-on experience in MERN stack. Skilled in Developing web applications, managing database with MySQL and MongoDB and building user-friendly interfaces. Quick to learn new technologies and committed to writing clean, maintainable and efficient code.

EDUCATION

Parul University Vadodara, Gujarat, India

Bachelor of Technology in Computer Science & Engineering with AI

2021-2025

- CGPA:7.46

N.M. Nootan Sarva Vidyalaya

Higher Secondary School

Visnagar, Gujarat, India

2019-2021

- Percentage: 74.83/100

SKILLS

Technical: MERN Stack, Python, SQL, JavaScript, HTML, CSS, DBMS, Bootstrap, Tailwind CSS

Tools: Git, GitHub, Postman, Vercel, Render, VS Code

CERTIFICATIONS

- Advanced Software Engineering Job Simulation – Walmart Global Tech
- Microsoft Certified: Xlerate Program – Future Ready Talent
- PU code hackathon certification
- JavaScript algorithms and Data structures certification – FreeCodeCamp
- Python (Basics) certification - HackerRank

EXPERIENCE

ByteXL Summer Internship Program Vadodara, Gujarat, India

05/2024

- Engineered 3+ full-stack web modules using React.JS and JavaScript, focusing on modular, scalable architectures.
- Developed optimized data manipulation algorithms using python and object oriented programming principles, reducing backend execution time for core data structures by 15%.

AI/ML Healthcare Hackathon (*PU hackathon*)

- Conceptualized and programmed IntelliVision during an intensive 36-hour sprint, integrating, 3 core AI module: ID verification, facial recognition, and real-time emotion detection.
- Embedded pre-trained Computer Vision models into an intuitive front-end layout, boosting data digitization speed and user-authentication security.

PROJECTS

Doctor appointment booking system

- Developed a full-stack doctor appointment booking system using MERN with role-based authentication and REST APIs. Implemented doctor search, appointment scheduling, real-time updates, and admin dashboard for managing users, doctors, and appointments.
- Technologies used ReactJS, NodeJs, ExpressJs, MongoDB
- **Project Link (User):** <https://doctorappointment-1-bwtl.onrender.com>
- **Project Link (Admin) :** <https://doctorappointment-admin-54gj.onrender.com> (Credentials: admin@healthub.com / qwerty123)

Job Portal

- Built a fullstack job portal using the MERN stack with features like job search, profile management, candidate filtering and recruiter job posting.
- Implemented secure authentication, application management and responsive frontend-backend integration to streamline the hiring process.
- **Project Link:** <https://jobportal-psqj.onrender.com>

Portfolio

- Programmed a fully fluid, production portfolio website utilizing custom breakpoints to achieve seamless cross-platform responsive scaling.
- **Project Link:** <https://poojan-portfolio-26.vercel.app/>

ShopYatra

- Built a responsive E-Commerce web platform integrating a client-side cart engine , state persistent layouts, and session state tracking.
- **Project Link:** <https://shopyatra-frontend.vercel.app/>
